

# PLTW Biomedical Science

This pathway focuses on the integrative scientific study of biological issues related to health and medicine. Students are taking on real-world challenges – and they're doing it before they even graduate from high school. Working with the same tools used by professionals in hospitals and labs, students engage in compelling, hands-on activities and work together to find solutions to problems.

## Required Courses

Principles of Biomedical Science	9th
Human Body Systems	10th
Medical Interventions	11th
Biomedical Innovations	12th

Every Student. Every Minute. Every Day.
